

Parade of Programs and Fall Party

October 30, 2009

On the morning of October 30, the children had an opportunity to show off their costumes by touring the Technology Center. As they visited the various programs, many gave the children treats. During the afternoon the parents and Early Care and Education students assisted in hosting a Fall Party for the children. We want to thank all students and parents/guardians that helped make this event a success.
